

Setting the Default Browser in Microsoft Windows 10

Users who install Windows 10 can change the default browser to Internet Explorer 11.

1. Click **Control Panel**
2. Click **Programs**
3. Click **Default Programs**
4. Click **Set Default Programs**
5. Select **Internet Explorer** and click **Set this program as default**
6. Click **OK**

Internet Explorer can also be launched by searching for it on the start menu and clicking on the Internet Explorer desktop application.
